PART 1, FEBRUARY 1990

Review:

R. B. Ashman, J. M. Papadimitriou, A. K. Ott and J. R. Warmington: Antigens and immune responses in *Candida albicans* infection 1

R. B. Ashman: Murine candidiasis: Cell-mediated immune responses correlate directly with susceptibility and resistance to infection 15

R. Chandrashekar, U. R. Rao and D. Subrahmanyam: Immune response to *Acanthocheilonema viteae* infection in multimammate rats (*Mastomys natalensis*) 21

E. K. K. Choi, P. A. Gatenby, J. F. Bateman and W. G. Cole: Antibodies to type II collagen in SLE: A role in the pathogenesis of deforming arthritis? 27

P. Price: Depression of humoral responses by murine cytomegalovirus infection 33

C. K. Dimmock, W. H. Ward and K. F. Trueman: Lymphocyte subpopulations in sheep with lymphosarcoma resulting from experimental infection with bovine leukaemia virus 45

P. J. McLaughlin, N. J. Elwood, L. T. Ramadi, M. R. Pica and I. F. C. McKenzie: Improvement in sensitivity of enzyme-linked immunosorbent assay for tumour necrosis factor 51

Ramdani, H. J. S. Dawkins, R. B. Johnson, T. L. Spencer and B. Adler: *Pasteurella multocida* infections in mice with reference to haemorrhagic septicaemia in cattle and buffalo 57

A. M. Rofe, M. W. Whitehouse, C. S. Bourgeois, D. R. Haynes and B. Vernon-Roberts: Prevention of adjuvant-induced cachexia in rats by cyclosporin A 63

Meeting Report:

R. Trindle: Genital warts: Molecular biology and immunology 71

PART 2, APRIL 1990

A. H. Chalmers and C. Hare: A semi-automated method for 5′-ectonucleotidase measurement in lymphocytes 75

A. H. Chalmers, C. Hare, G. Woolley and I. H. Frazer: Lymphocyte ectoenzyme activity compared in healthy persons and patients seropositive to or at high risk of HIV infection 81

M. A. Théveniau, P. Malapert and G. N. Rougon: Antibody against *Bacillus thuringiensis* phosphatidylinositol-phospholipase C: Some examples of its potential uses 87

A. H. W. Mendis, T. J. Venaille and B. W. Robinson: Study of human epithelial cell detachment and damage: Effects of proteases and oxidants 95

D. E. Leslie, S. Nicholson, M. Dimitrakakis, N. Johnston and I. D. Gust: Humoral immune responses in mice using gamma inulin preparations as adjuvants for hepatitis B vaccines 107

J. Ruby, C. Brinkman, S. Jones and I. Ramshaw: Response of monkeys to vaccination with recombinant vaccinia virus which coexpress HIV gp 160 and human interleukin-2 113

A. F. Breidahl, R. T. Judson, L. J. Dumble and G. J. A. Clunie: *In vitro* culture of disaggregated rabbit keratinocytes 119

D. L. Emery, J. S. Rothel and P. R. Wood: Influence of antigens and adjuvants on the production of gamma-interferon and antibody by ovine lymphocytes 127

S. Homma, I. Millman and N. Yamamoto: A serum factor for macrophage activation after *in vitro* dodecylglycerol treatment of mouse lymphocytes 137

Book Reviews 143

PART 3, JUNE 1990

P. Coyle, A. M. Rofe, C. S. Bourgeois and R. A. J. Conyers: Biochemical manifestations of a rat mammary adenocarcinoma-producing cachexia: *In vivo* and *in vitro* studies 147

I. A. Penttila, C. E. Gibson, B. D. Forrest, A. G. Cummins and J. T. LaBrooy: Lymphocyte activation as measured by interleukin-2 receptor expression to gluten fraction 111 in coeliac disease 155

H. M. Vordermeier, M. Pope and I. Kotlarski: Presentation of *Salmonella* antigens by peritoneal cells of normal and *Salmonella*-infected mice 161

K. M. Franklyn, J. R. Warmington, A. K. Ott and R. B. Ashman: An immunodominant antigen of *Candida albicans* shows homology to the enzyme enolase 173

R. B. Ashman: Murine candidiasis: Susceptibility is associated with the induction of T cell-mediated, strain-specific autoreactivity 179

A. Wongoo, S. Kaur, N. K. Ganguly, G. Bhatti and R. C. Mahajan: Quantitative estimation of suppressor/cytotoxic and helper T cells during acute and chronic *Plasmodium berghei* infection 187

J. J. Tjandra, J. Zalcberg, P.-X. Xing and I. F. C. McKenzie: Characteristics of a breast cancer-associated antigen defined by RCC-1 antibody 191

H. S. Warren and C. R. Parish: Mapping the dextran sulfate binding site on CD2 199

J.-G. Teh, P.-X. Xing and I. F. C. McKenzie: Anti-colorectal carcinoma monoclonal antibodies reactive with human milk fat globular membranes 207

PART 4, AUGUST 1990

H. Zola, R. J. Purling, L. Y. Koh and M. Tsudo: Expression of the p70 chain of the IL-2 receptor on human lymphoid cells: Analysis using a monoclonal antibody and high-sensitivity immunofluorescence 217

D. R. Haynes, P. F. Wright, M. W. Whitehouse and B. Vernon-Roberts: The cyclo-oxygenase inhibitor, Piroxicam, enhances cytokine-induced lymphocyte proliferation *in vitro* and *in vivo* 225

Z. Pojda, Y. Aoki and A. Tsuboi: *In vivo* effects of recombinant granulocyte-colony stimulating factor in athymic nude mice 231

S. Bao, N. J. C. King and C. G. dos Remedios: Elevated MHC class I and II antigens in cultured human embryonic myoblasts following stimulation with γ-interferon 235

Y. E. Vanderbecken, J. Duchateau, L. Van Boogaert, P. Desseilles, H. Collet and A. Lucas: The interleukin-2 receptor on cord blood and nulliparous mononuclear cells is downregulated by maternal and cord blood serum 243

J-G. Teh, C. H. Thompson and I. F. C. McKenzie: Production and characterization of a new monoclonal antibody to colorectal carcinoma 253

J-G. Teh and I. F. C. McKenzie: Monoclonal antibodies to carcino-embryonic antigen 263

J. A. Owen, K. T. Grahl, A. Zador, D. R. Dorer, L. Klien and M. B. Rubin: Antigenic requirements for stimulation and target cell recognition by immune and non-immune cytotoxic T lymphocytes 269

Y. C. Smart, K. L. Stevenson, M. L. Farrelly, J. H. Brien and R. C. Burton: Production of a monoclonal allo-antibody to murine natural cytotoxic cells 277

Book Reviews 285

PART 5, OCTOBER 1990

H. T. T. Tran, A. D. Cook, M. Ganas and C. Cheers: Distinction between 'inflammatory' and 'immune' macrophages killing *Listeria monocytogenes* in murine infection 289

H-M. Vordermeier and I. Kotlarski: Identification of antigens which stimulate T lymphocytes of *Salmonella enteritidis* 11RX immunized mice 299

H-M. Vordermeier and I. Kotlarski: Partial purification and characterization of low molecular weight antigens of *Salmonella enteritidis* 11RX 307

M. J. Rudd, M. F. Good, D. E. Chapman, L. W. Powell and J. W. Halliday: Clonal analysis of the effect of iron on human cytotoxic and proliferating T lymphocytes 317

G. Karupiah, B. Coupar, I. Ramshaw, D. Boyle, R. Blanden and M. Andrew: Vaccinia virus-mediated damage of murine ovaries and protection by virus-expressed interleukin-2 325

D. C. Taylor, A. W. Cripps and R. L. Clancy: Inhibition of adhesion of *Haemophilus influenzae* to buccal cells by respiratory secretions 335

Brief Communication

G. Karupiah and R. V. Blanden: Anti-asialo-GM_1 inhibits vaccinia virus infection of murine ovaries: Asialo-GM_1 as an additional virus receptor? 343

Corrigendum 347

PART 6, DECEMBER 1990

G. F. Mitchell: From PhD to parasites over 25 years: Results, discussion and acknowledgements 349

H. Billman-Jacobe, A. J. Radford, J. S. Rothel and P. R. Wood: Mapping of the T and B cell epitopes of the *Mycobacterium bovis* protein, MPB70 359

J. J. Tjandra, L. Ramadi and I. F. C. McKenzie: Development of human anti-murine antibody (HAMA) response in patients 367

G. F. Mitchell, K. M. Davern, S. M. Wood, M. D. Wright, V. P. Argyropoulos, K. S. McLeod, W. U. Tiu and E. G. Garcia: Attempts to induce resistance in mice to *Schistosoma japonicum* and *Schistosoma mansoni* by exposure to crude schistosome antigens plus cloned glutathione-S-transferases 377

G. Pang, R. Clancy and H. Saunders: Dual mechanisms of inhibition of the immune response by enterocytes isolated from the rat small intestine 387

I. G. Colditz: Effect of exogenous prostaglandin E_2 and actinomycin D on plasma leakage induced by neutrophil-activating peptide-1/interleukin-8 397

Brief Communication

M. Griffiths and D. Keast: The effect of glutamine on murine splenic leukocyte responses to T and B cell mitogens 405

Book Reviews 409
